April 5, 2009

Thank you for allowing me to comment on the 2008-2009 Preliminary Grant proposals.

I have reviewed the grants submitted by the California Trail Users Coalition. I believe these proposals reflect the intended use of green sticker funding. These projects fully support the OHV community while protecting the natural resources. I am encouraged to see a new volunteer organization such as the Stewards of the Sierra National Forest, in partnership with the Sierra National Forest, getting involved in good stewardship projects that promote the responsible use and education of motorized recreation. It is for these reasons I ask you to fund all the projects submitted by the California Trail Users Coalition.

Sincerely

Steve Cowdrey
